TechNova solutions Pvt. Ltd.

Subject: Application for Software Developer Trainee Position

Respected Hiring Manager,

I'm writing to TechNova Solutions Pvt. Ltd. to express interest in the Software Developer Trainee position. At TKM College of Engineering, Kollam, I am presently working toward a Master of Computer Applications (MCA), and I am excited to start my career in a vibrant and growth-oriented setting such as TechNova.

Through internships and school projects, I have obtained practical development experience. Using Django, HTML, CSS, JavaScript, and MySQL, I created full-stack web applications during my two-month internship in Django Web Development. Additionally, I finished an internship in Flutter development, where I worked on cross-platform application state management, widget-based layouts, and user interface components. I was able to improve my coding, debugging, testing, and problem-solving abilities thanks to these experiences.

TechNova's emphasis on mentorship and exposure to real-world projects particularly inspires me. I am certain that my basic programming abilities in Python, Java, and web development, along with my openness to learning and teamwork, qualify me for this position. I'm determined to keep honing my craft and making a valuable contribution to your development team.

Thank you for considering my application. I would be grateful for the opportunity to discuss how I can contribute to TechNova Solutions. I look forward to your positive response.

Sincerely,

Nidhish Chandran
